

Federprogetti: Italian Federation Of Industrial Plant Engineering

Federprogetti was established on March 27, 2008; The President is Fabrizio Di Amato.

Federprogetti's mission is to give Italian industry the opportunity to exploit its full competitive advantage and to better react to the quick technological change characterizing today's world economy. Thanks to the synergy of its member Associations, Federprogetti is highly qualified and prestigious vehicle of the industrial and engineering "made in Italy" worldwide.

Federprogetti is a dedicated federation within Confindustria, which aims to represent and valorize the civil and infrastructural Italian engineering and industrial plant sector.

Federprogetti represents:

- A total manpower of 400,000 employees (mainly highly specialized technicians and engineers)
- Over 4,000 Companies, including main contractors, engineering companies manufacturers of plant components, suppliers of electronic and mechanical technology and plant erection and assembly specialists.
- The main Italian Universities and research centres.
- Total revenues for 150 billion euro, about of 60% implemented abroad as a result of direct and turn-key projects.

Anie (Italian Association of Industrial Plant Engineering)

Anima (Federation of the Italian Associations of Mechanical and Engineering Industries)

Animp (Italian Association of Industrial Plant Engineering)

Assomineraria (The Italian Petroleum and Mining Industry Association)

Assistal (Italian Association of Mechanical, Electrical and Telecommunication Contractors)

Oice (Association of Italian Engineering Architectural and Technical-economic Consulting Organizations)

Uami (Association of the Italian Manufactures of Buildings and Industrial and Infrastructural Plants Assembly)

Confindustria (Confederation of Italian Industry)
